

Covid Having Failed to do the Job, Bill Gates Is Making a Second Run at culling the population

The culling is ongoing...

...but the comments in the below NY Post article further prove that there is a great awakening underway...

World Health Organization (WHO) Director-General and Big Pharma Shill Tedros Ghebreyesus has called on countries to sign on to WHO's pandemic treaty so the world can prepare for "Disease X."

Ghebreyesus, speaking in front of an audience at the World Economic Forum in Davos last Wednesday, said that he hoped countries would reach a pandemic agreement by May to address this "common enemy."

Scientists on Big Pharma and WHO's payroll say the unknown and hypothetical virus "could be 20 times deadlier than COVID-19."

WHO calls for world pandemic treaty to prepare for deadly 'Disease X'

By Michael Dorgan , Fox News

WHO is a political and propaganda organization, not a health organization.

Notice that WHO is predicting in advance of its appearance a new 20 times more deadly virus. So WHO is claiming a crystal ball that reveals the future. Why does it only reveal future viruses?

Notice that WHO knows in advance that the unknown and hypothetical virus is very deadly.

Notice that none of these things can possibly be known before they happen.

There is an effort long underway to take all control over health decisions out of the hands of doctors and patients. The WHO "treaty" is likely designed by Bill Gates, Fauci, and Big Pharma. It is an instrument of tyranny. It will be used to prevent effective treatment against whatever pathogen is next released.

Notice that WHO's prediction is an indication that another released virus will soon be on its way to us.

Notice that these predictions are coming from the Bill Gates/WEF crowd that is intent on reducing the world population by 7.5 billion lives, effectively a genocide of the human race.

Notice that the politicians and media are doing nothing to alert the public and that the organized attempt to destroy your control over your health is meeting faint resistance.

WHO knows that the Covid "pandemic" was an orchestration in which covid tests known to produce false results were intentionally used to create the image of pandemic.

WHO knows that most deaths were not from Covid but from the withholding of effective treatment and the imposition of a treatment protocol known to maximize the death rate.

WHO knows that the "vaccine" has killed and maimed far more people than the virus itself.

Notice that this means that WHO knows it is again deceiving and lying to the public.

Notice that "our representatives" in Congress are doing nothing to protect us.

Notice that the corrupt medical establishment goes along with it even though most of them will also be victims.

Notice that censorship is tightening and that it will be harder the next time to get correct information to the public.

Notice that Bill Gates and Tedros Ghebreyesus are still treated as honorable men.

The comments from the NY Post article say it all:

No thanks. The WHO and the CDC both lost their credibility during the pandemic. We witnessed first hand how both were driven by left wing partisan considerations rather than objective scientific data, and how they ostracized any scientist or doctor who disagreed with them, and facilitated suppressi...

Considering WHO 's failures during Covid, it does not make sense to allow WHO to make decisions for the US. At least some states got the balance right between health safety and economic safety. I am not saying not to help less advanced nations; I am saying that we should suffer our own mistakes not the mistakes of the world.

um nothing any state did effected the spread of covid ,.....if we had done nothing we would of had far fewer deaths and little to no economic impactfor covid the cure was 100x worse than the disease with a 98.7% survival rate.

Make the world a safer place. Quarantine every WEF member and delegate; every UN delegate; every climate change advocate who has flown in private transportation; has gas or electric hookups in their homes; has multiple homes; does not regularly consume an insect diet; or has ever lectured the public on any subject at any time in the past. Proposed time for quarantine: 25 to Life. (Please pass the Katydid).

And let me guess. The proposed treaty will give a bunch of money to WHO and a bunch of power to a group of unelected European technocrats who are not answerable to anyone. Except to the Chinese.

he is wearing a mask. that is hilarious. where he is right now there is no reason for him to wear a mask -- but it is a badge of solidarity. science is not as important as keeping together -- it's like wearing a little american flag pin -- which i think people don't do anymore -- or those little ri...

It doesn't matter. It's irrefutable science that that diaper he is wearing over his face does not stop the spread of aerosol virus pathogens. Yet he still wears it like a fool - and he is the leader of the WHO?

The long game being played here by governments, the WHO and others (including pharma) is for the population to be perpetually scared of viruses causing "another pandemic". This will result in people calling for - or at least tolerating - a permanent biosecurity surveillance state, pandemic preparedness treaties and all the related paraphernalia which limit personal freedoms whilst enriching a narrow stratum of society. Those that benefit from that - through control or financially - don't really care if people conclude that the "viral threat" is "man-made" or "zoonotic", provided people believe there is a threat.
